Message from the CEO

Dear Aspirant,

EDUCLOUD Education Consultancy is primarily an overseas educational consulting group dedicated towards providing quality services to students for getting into abroad universities and colleges. The EDUCLOUD Educational Consultancy Ltd proudly extends its support in the areas of Visa counseling, Test preparation and all the admission related services which are necessary for the students. The EDUCLOUD Education Consultancy Ltd true to its mission & vision, EDUCLOUD today has not only helped 3000+ students realize their study abroad dream but has also established a trans global presence. I am proud to say that my humble beginnings of assisting students & young professionals of my home town Lucknow have today burgeoned into providing students based at diverse global locations in Asia, Europe, America, Middle east, Australia & many more with the right guidance, mentoring & assistance.

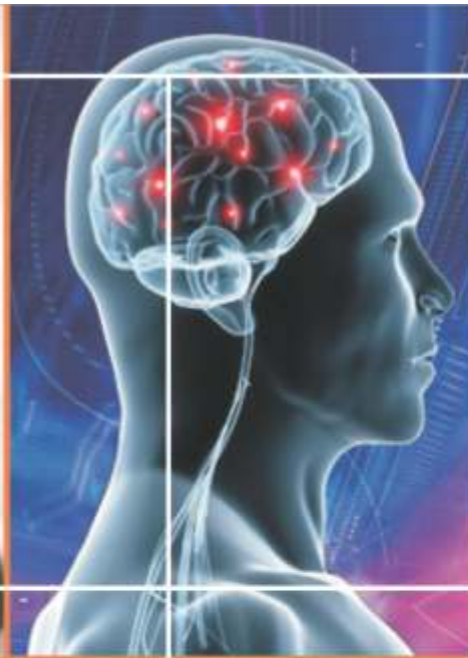

The team at EDUCLOUD consists of the best in the industry counselors, tutors and application & Visa experts who constantly strive to provide updated information on courses, universities, application procedures & visa formalities. Our ethical and transparent approach has won us many accolades down the lane. EDUCLOUD's tutorials are among the best in the region with expert tutors, well researched, refined & continuously upgraded study material & worksheets and state of art audio visual lecture rooms. Our pedagogy, self-stimulating approach and personalized attention has helped test takers achieve the top scores in international exams. Indeed EDUCLOUD is well on its way to achieve its mission & my vision 'Educate to Success' and in the years to come will translate my dream of providing every young aspirant with a gateway to world class education and help them create their legacy.

"Best Wishes for Your Bright Future"

Good Luck!

Cheers,

Dr. Deependra Pandey,

Student Services

Our Student Services teams are dedicated to supporting students from enquiry to progression and moving on.

Whether it's help with accommodation, progression and pre-exit advice, seeking employment or assistance with applying for additional funding our Student Advice and Guidance Team are here to help.

We want all our students to realise their full potential by moving onto the right career or course. We provide a number of resources to guide you through this process including a Skills Development, Careers Adviser who will advise you on all aspects of your career.

At our student employment service where you will find part-time vacancies and advice on job seeking, CVs, interviews and more

Going to college is a big decision. There may be lots of questions you want to ask. Our College Information team can help with information about courses, travel to college, funding options and support for your learning. We can point you in the right direction for further advice and guidance depending on your own circumstances.

Financial Support

Our Student Funding Team will award you with the most appropriate

levels of Bursary. To make this possible, our team will make sure you've provided all the evidence required.

We'll give you an indicative offer of funding before you start learning, so you can plan ahead and budget your finances to make everything more manageable. Student Funding staff are available daily to answer any questions, and help you with the application process. We provide all the documents essential for education loan by the Banks & other Govt. Bodies.

In addition, if you have any concerns about whether you can afford to come to college, please get in touch. We will be happy to help you investigate sources of funding and work through a budget plan.

Our Student Support Team is here to talk through any support you may need to get started and to stay on track. We all need support at some time so it's always best to ask.

If you have specific support needs and wish to discuss how this may affect your plans to study, the Student Support Team can help. To make sure you have a smooth transition into college life, we'll discuss everything before you make your application and again at interview and enrolment.

Training

EDUCLOUD is a career launching institute devoted to training individuals aspiring to study abroad. EDUCLOUD recognizes / believes that each of its student is unique and therefore designs its training programme to suit individual needs and to bring out the best in them.

What makes EDUCLOUD unique and different?

- The study material at EDUCLOUD is based on extensive research imparted by well-trained student friendly professionals.
- Well equipped lab with computer aided tests expose students to a virtual reel atmosphere and provides them with immediate results according to their preparation.
- We understand the importance of environment during the learning process therefore all our classrooms are air conditioned with full power backup.
- We always believe in best and therefore we use all modern and quality equipments such as laser projectors, wireless headphones, and LCD display units etc.
- All our faculties are well experienced and have gone through rigorous training process.

Sometimes, Focus

all you need, is a little help to

Admission Counselling

Step 1 : Understanding Student Profile

- Skill and aptitude assessment.
- Personal scanning with counsellors.
- Detailed analysis of student's academic & professional background.
- Identify your strengths & weaknesses.
- Understand your career goal & requirements.
- Discuss your career plans.
- Answer your queries.

Step 2 : Selection Of Best Fit Program / Course

Our counsellors assist you in selecting the suitable course based on your :

- Previous academic background & scores.
- Work Experience (if any).
- Test Scores.
- Aptitude & Interest.
- Career Prospects.

Step 3 : Shortlisting Universities

We guide you in choosing the universities keeping in mind:

- Location of your choice.
- Availability of Course.
- University/Departmental Resources.
- Availability of Scholarships & funding.
- Job prospects.
- Tuition & Living Costs.

Step 4 : Preparation Of Application Material

We help provide personal sessions and rigorous guidance to draft application material which is the core component of your application. Thus making it strong and attractive thereby enhancing your admission chances.

- **SOP** - A well written SOP is a strong tool to get admit into some of the TOP universities world wide.
- **LORs** - Letters of recommendation from your teachers, professor or employer helps the admission committee evaluate your suitability for the course.
- **CV** - A strong CV mirrors your career progression.

- **Essays** - Many masters programs & all MBA programs require students to present their perspective on different issues or analyse business situations.

Step 5 : Guidance For Transcript Formats & Financial Documents

Transcripts - In addition to marksheet some universities also require transcripts which includes detailed information about your academic grades and evaluation process. We assist you with correct Transcript Formats as required by the universities to avoid delay in evaluation of your application.

Financial Documents - It is important to have Bank Statements and letters in correct format and must contain relevant information before forwarding it to the University for Assessment. Based on your current financial situation we assist you preparing the correct financial documents as required by the university.

Step 6 : Filling Up Of Application Forms & Facing Admission Interviews

Our admission counsellors assist students in completing online and paper-based applications. There are several complex questions and sections with the application which require guidance from seasoned professionals.

- Assistance with answering complex questions.
- Uploading documents in the right format.
- Guidance for solving technical difficulties in online application.
- Rigorous preparation for admission interviews.

Step 7 : Guidance For Scholarship Applications

Some universities require applicants to complete separate scholarship applications. We at EduCloud assist students in:

- Completing scholarship applications.
- Preparation of Scholarship Essays

Step 8 : Follow Up Till Admission Letter Is Delivered

With over 7 years of experience in the field we have good contacts with university officials across the globe and therefore we rigorously follow up with the universities till your admission letter is delivered. Admission letters take different forms in different countries like I-20 in US, CAS in UK, eCOE in Australia and so on. Admission letters are required to file visa for that country

Educloud Linkages with International Universities

The Unit for International Linkages (UIL) expands the international scope of the University by developing official agreements with universities abroad to facilitate the exchange international students and faculty, and by providing the International Seminar Series, a weekly speakers program that educates our campus and local communities on world issues.

International Linkages Advances Internationalization At Universities By:

- Growing the number international students studying in your universities;
- Facilitating faculty exchanges both national and international for collaborative research and professional development.
- Providing weekly opportunities for campus- and local-community members to learn about the hottest topics on the global stage today.

Strategies and Planning

Based on our market research and experience we develop effective strategies to establish strong brand and positioning in south Asia market. Strategic planning is a key to success, considering the current trend and instability in the market, it has now become important for educational establishment to revise their existing strategies as per the market requirements. Our crew works with senior managers to help them with key stages of strategy development - working on educational intent, enacting strategies, differentiating education initiatives and services, supporting strategies, defining the vision, or rebranding corporate identity.

Despite the typical requirement to produce strategic plans for "compliance", educational institutions also need to develop more purposeful, evidence-based plans that will position them in competitive and fast changing student and parent markets.

EDUCLOUD prides itself in having a combination of deep knowledge of higher education with specialised expertise in strategy implementation, business improvement and organisational transformation. Our key strength is our ability to link effectively strategy to operational delivery.

The Main Objective Of EDUCLOUD Is To Enhance The Efficiency Of The Administration Of Educational Institutions In Direct Pursuit Of Their Objectives By:

- Advice, training and information about financial planning, effective management procedures, and the best use of available resources.
- Any other assistance appropriate to the provision of financial planning, procedural advice and resource management.

We Work With Universities To:

- analyse and inform on strategic opportunities
- develop competitive advantage through positive engagement

Exchange Program

Through the International Exchange Program, you can study overseas and enhance your Sydney course with an international perspective, gaining a broader view of the world and of a new perspective OF DIFFERENT COUNTRY it shows improved their career prospects, showing employers the advantage of the generic skills gained whilst living abroad, such as independence, improved communication and negotiation skills. And you develop all these skills, whilst you have a blast, travelling and exploring the world!

To be an exchange student, candidates must be officially nominated by their home institution and pay the tuition fee to the educloud. On-campus housing is provided and fees for taking travelling and will be partially supported.

Our Services For The Study Abroad Program Include:

- Identifying the potential course and university as per your requirements
- Negotiating with the universities
- Assistance in establishing long term relationship with the universities
- Assisting our students in securing visa
- Assistance with pre-departure services such as foreign exchange, insurance, travel arrangements etc.
- Assistance in post landing services such as airport pick up, accommodation arrangements etc.

Whether you are a small, medium or big institution, EDUCLOUD will be able to assist you in finding the right University/College meeting your requirements.

Educloud Linkages with Indian Universities

EduCloud Offers International Guest Visit And Deliver lectures by internationally recognized leaders in the field of science and technology each year. This Guest Lecture Series invites approximately 50 s, scholars, and critics to campus. During their visit, invited guests present their scholarly and creative research in a public lecture. Planned alongside the lectures are a variety of activities designed to provide students the opportunity to further engage with the lecturer. This associated programing ranges from workshops and class visits to panel discussions to exhibitions. Graduate and advanced undergraduate students also have opportunities to participate in individual studio visits and group critiques with the guest lecturer.

Through the exploration of contemporary science, students are better prepared to be informed contributors and critical thinkers in an increasingly visual and international culture where diverse language and learning styles are the norm and creativity and innovation are values of great importance. In total, the Guest Lecture Series explores how visual representation in all its complex forms exists as a mode of inquiry for the writer, scientist, community, etc.

EDUCLOUD PROVIDE BEST internship & summer training for students in India with hundreds of paid internships in Engineering, MBA, media, law, arts, and other and these are ...

Summer-Project Is Designed For Undergraduates Of IT, CS And EC Branch Researching Their 3rd Year Or Final-Year Dissertations.

Summer projects in offers academic and personal benefits: Perhaps one of the biggest challenges for many college students during the summer is deciding how best to pack the most fun, adventure and self-improvement into the three short months that make up that short intermission from class. And for students that want to continually grow stronger in their faith, the summer you're away from your community of friends But what if summer could be a time not to stagnate in life, but to grow deeper and live more fully? That is the heartbeat of The Navigators' Summer Training Programs (STP). STP is a summer opportunity created to gather together like-minded, believing college students to stoke the fire of passion for God as they do Kingdom work all over the country. Students experience two months of deep Biblical study, personal discipleship and Christ-centered volunteer assignments.

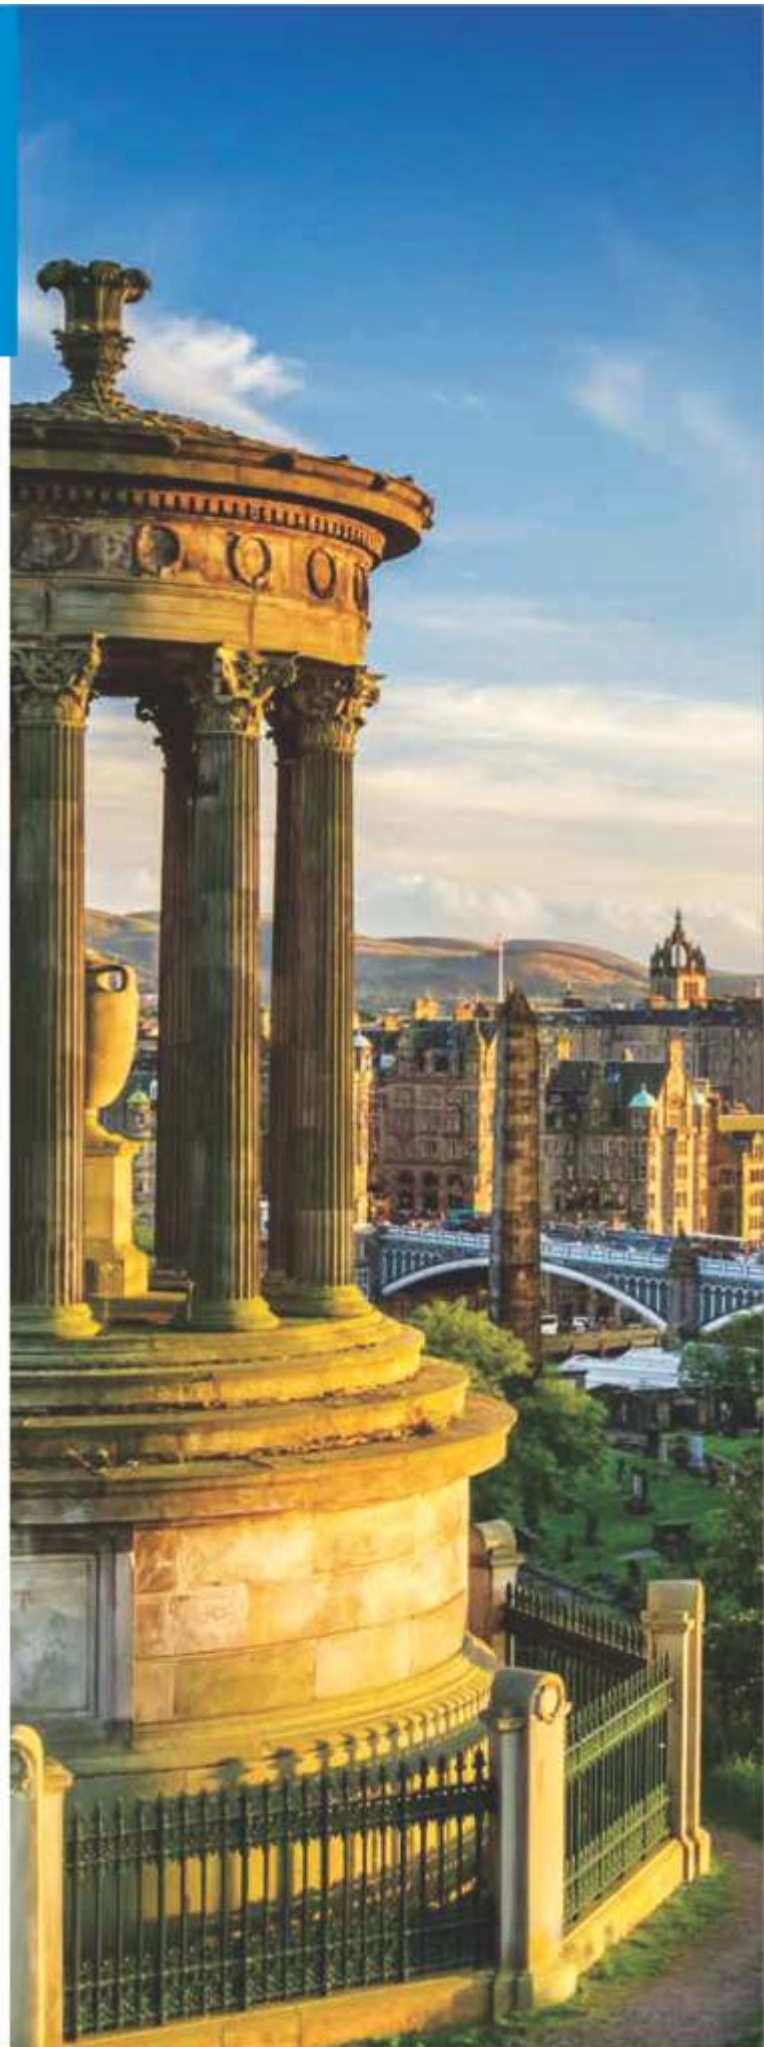

- Academically, you can present an original item of study.
- An opportunity to bring your thoughts into reality under the expert guidance of world class professors and academicians
- Experience the education culture

On a personal front, you broaden your horizons by gaining insight into a new country and cultures

The Details Of The Summer Projects Program Below:

- The program is for 3rd (students progressing to 3rd year) and 4th year IT and CS students
- The total duration of the program will be 4 TO 8 weeks.
- The program is limited to a maximum of 20 students.
- The students will be able to do the project under the supervision and guidance of highly qualified professors.
- The student will receive a certificate from the university upon successful completion of the Course for the duration of four weeks, which they can add onto their CVs.

EDUCLOUD will help you with all the practicalities necessary to join this program, including the preparation of all necessary documents, visa assistance, arranging airport pickup, accommodation, insurance and travel arrangement.

Study in

About USA

The American education system offers international students the most diverse set of education options in the world. In fact, an international student who elects to take advantage of the American education system can pursue anything from nuclear science to film and dance. American education possibilities are almost endless!

International Student Scholarships: Grants, Loans And Scholarships For International Students

While the cost of an American education is high and can add up to tens of thousands of US dollars, it is an investment that will benefit you for the rest of your life. Since you will be required to prove you have the necessary financial resources in order to obtain an international student visa, it is very important to first calculate how much your total USA education will cost. The information in the Calculating costs section will help you. Please note that, in general, it is not easy to obtain an international student scholarship or international student loan since competition amongst applicants is fierce. There are literally thousands of students who apply for scholarships for international students and international student loans. Once you have determined how much international student financing you will need, you must next determine how you will obtain that student financing.

- Are your parents financing your USA education?
- Have you obtained an international student scholarship?
- Have you been able to secure an Education Loan from your home country

How Should I Apply To Study In The USA?

We will make you understand how the USA admissions process works. What do US universities, US colleges, and other USA schools look for in international student applications? We will help you in planning your application in advance using our admission calendar, we will also advice on choosing your major, selecting the right US universities, US colleges or USA schools, US college entrance exams such as SAT, GRE, GMAT and TOEFL, college admission essay help, and other essential

STUDY IN AUSTRALIA

Australia is one of the best harmonious multicultural societies in the world. Communities of various sizes throughout the nation represent people from every nation and ethnic group of the world. Australia offers a dynamic, multicultural and supportive environment for international students. Australians are open and friendly people. The healthy, safe environment combined with the excitement of cosmopolitan cities make Australia a favourite place for students and tourists to explore its unspoiled environment.

Australia is proud of the quality of its education and training. In the past 10 years, more than one million students from overseas have studied in Australia.

The internationalization of Australian education and training has been occurring at a rapid rate. Linkages between Australian and overseas schools, universities and colleges, and linkages and exchange between individual students and staff have blossomed. The Australian Department of Education, Science & Training is represented in India at the Australian High Commission in New Delhi.

International students must provide evidence of their English language proficiency to study in an Australian Institution. All international students must apply for a student visa to enter Australia. Pre-conditions for studying in Australia are:

- Enrolment in full-time study in a course registered by the Government.
- Comprehension of English appropriate for the purpose of course of study.
- Genuine intention to undertake studies and abide by visa conditions.
- Financial capacity to meet fees and living expenses.
- Adequate arrangements in Australia for health insurance for the full duration of stay.

Top 10 reasons to study in Australia

- Australia is a safe, friendly, sophisticated, multicultural and harmonious society in which students can learn and travel in an English speaking country.
- Australian universities have an international reputation for excellence in many disciplines.
- Australia has a reputation for adopting new technologies at a faster rate than in most other countries and enters the new millennium with one of the highest rates of Internet access in the world.
- Facilities for teaching, training and research are world-class in terms of state-of-the-art laboratories and classrooms, outstanding libraries and modern technology.

- Australian qualifications are internationally recognized when seeking employment or further study at leading international universities.
- Australia is an international leader in safeguards and support services for international students. Specialist services for international students are well resourced, quality assured and can be enjoyed in a safe and welcoming society.
- Australia also offers excellent value for money, with living expenses and tuition costs in Australia considerably less expensive as compared to other comparable countries and a standard of living that is amongst the highest in the world.
- The Australian education is renowned for practical application of studies. Research and industry bodies are continuously interacting with various educational institutions, thereby assisting students to apply their studies in the real, practical world.
- International students in Australia can work up to 20 hours a week during course time and full-time during vacation periods. Thus the students acquire useful experience while they are earning money.
- Australia is among the top ten largest spenders in research and development and is internationally recognized in a number of fields for outstanding achievements. Australia produces approximately 2 percent of the world's scientific research papers, placing it on a per capita basis ranking with the United States and the United Kingdom.

And Many More

Study in UK

The UK is an exciting combination of four distinctive countries, each with their own cultures, living traditions, breathtaking architecture - new and old - and incredibly beautiful landscapes. And, if you like, you can immerse yourself in them all by choosing to study in and explore the fascinating mix of history and innovation that is England, Wales, Northern Ireland and Scotland. Above all, these countries that make up the UK work together to help you to feel at home as soon as possible. The diverse, multi-cultural population of the UK means that in no time at all you can feel a part of UK life and experience the real English language, whichever of its countries you choose to discover.

Top Reasons To Study In UK

1. The UK is a cosmopolitan place to live. Many thousands of families from around the world have made UK their home, creating a richly diverse, open-minded, multicultural society.
2. The UK universities/ colleges are ranked one of the best for its teaching quality. UK qualifications are recognized and respected throughout the world. UK Universities, Colleges and Schools provide a vibrant, creative and challenging environment to develop your potential. Quality standards for UK institutions are among the best in the world.
3. Employers want employees who can think effectively, creatively and for themselves. This is an essential part of the UK learning experience.
4. Most of the UK Bachelor's courses take only three years and Master's courses take only one year as compared to four years of Bachelor's and two years of Master's courses in most of the other countries. This means a student can save a great deal on both tuition fees and living costs. UK degree courses are shorter because they are more intensive, and therefore more efficient in terms of time and money.
5. Universities in the UK offer good teacher/student ratios
6. UK has been welcoming international students for generations. Many institutions arrange for students to be collected from the airport and offer guaranteed accommodation for first year. UK has one of the lowest 'drop-out' rates in the world.
7. Sandwich* courses are also available which allows students to gain experience in their respective fields.
8. Students are permitted to work up to 20 hours a week during term time and full time during holidays.

* Sandwich courses are available only for undergraduate courses. It includes 2 years of studies then 1 year of industrial placement and then 1 year of studies (total Duration of 4 years)

And Many More

STUDY IN GERMANY

About Germany

Germany is situated almost at the heart of Central Europe. At the southern end of Germany are the Alps, the highest mountain range in Europe. In central Germany are the Harz Mountains. Germany also has many fertile plains which make good farm land. The Rhine River, in the western part of Germany, is a main waterway for transporting goods from northern ports. Germany shares the longest boundaries at western line with France, Netherlands, Luxembourg and Belgium. Germany is bounded in the north by Denmark and Baltic Sea, east by Poland, east and southeast by Czech Republic, south east and south by Austria and south by Switzerland. Germany geographically sizes around 138,000 square miles with around 81 million populations. Major cities in Germany are Berlin, Munich, Hamburg, Bremen, Hanover, Frankfurt, Nuremburg, Stuttgart and Dusseldorf.

As Germany is one of the top international countries that provide best high-tech study environment, scholarships and academic exchange programs hopeful students get enrolled in the country in ample number every year. If you decide going to Germany for your studies, you can be sure of acquiring internationally renowned education and qualifications.

Why Germany

Germany by large has become a great hub for International students. More than 1.8 million students immigrate to study abroad globally and nearly one tenth of them choose to study in German Universities and institutions mainly because:

- Germany has more than 300 institutions of Higher Studies. Germany in recent times has become top most hub in the field of Engineering, Science and technology and research.
- High Academic Standards: German Universities has long backed history to the 15th Century and provide outstanding level of world class education.
- Cost Effective Study -Germany offers the best and the most cost effective study options for international students. Most of the universities are state-funded, so most of them charge no tuition fee from students. Students only need to bear their living expenses, such as accommodation, food, health insurance and transport.
- Highest student Immigration -Attracted by international study programmes, excellent research opportunities and low tuition fee more than 2,50,000 international students come to there to study. Study in Germany also gives you a wider exposure and experience of being a part of highly qualified academic community.
- Abundant Internship Programs: Germany is the only country in the World where completion of study programs in Universities is normally followed by paid internships in top MNCs that ultimately lead to full-time placement. The presence of leading companies such as Daimler-Chrysler, SAP, Siemens, BMW or Bosch, in Germany will increase your career prospects.
- Fun and Travel-With beautiful landscapes all around Germany and many historical monuments depicting cultural heritage of

Germany. It is one of the most beautiful places to live.

Some Important Facts:

- Students are allowed to stay for one year after the completion of the study program. Your work permit could be further extended by that employer.
- Learning German language will open the doors to various cultural centers of Europe: Berlin, Vienna, Geneva, Zurich, Frankfurt and Munich.
- Permanent Residency permission within 5 years of working full-time in Germany.
- German Immigration option is also valid for international students.
- Minimum documentation required for visa process and no financial declaration documents required.
- Part-time jobs allowed to students for 180 half days and 90 full days during vacation making learning and living conditions within the reach of the students.

Visa process :

Students interested to pursue their studies in Germany need to take Student visa for entry or popularly known as Residence permit in form of VISA. Visa should be issued during the time of entry so you should be careful of timing while applying for it. You should therefore apply for it in good time. Normally German embassy takes 8 weeks time for processing and Issuing Visa Application. Students have to fulfill the following requirements before being granted a student visa:

- A valid passport with one copy and 2 passport sized photographs.
- Completed VISA Application Form and required declaration in duplicate.
- Proof of possession of a school leaving certificate, i.e. A-level certificate, entitling you to study.
- Proof that you already possess German-language skills and/or that you plan to attend an intensive language course (at least 20 hours per week) in Germany.
- Proof of sufficient funds to finance your period of study.
- Acceptance of a German university/language school/college.
- Evidence that you have sufficient funds to support yourself while living in Germany at least for entire course duration including Tuition fees and living expenses.
- A Health Certificate.
- In some cases you would need a blocked account ("Sperrkonto") in Germany in the name of the applicant showing a minimum balance of Euro 7.905,- and the remark that the account holder can dispose of a monthly amount of EURO 659.00

After the document check, an appointment for the mandatory visa interview in the German Consulate General will be scheduled. The Visa is issued when the student is assessed to be genuine students on satisfying all other conditions required.

For more accurate details on documents required for Student Visa contact Visa coordinator at educloud

University list

We at educloud assist students based on their profile in order to search right course and university for them. However some of the major universities in Germany accepting international students are listed below:

UNIVERSITY NAME

- University of Berlin
- University of Leipzig
- Rheinisch-Westfälische Technische Hochschule
- University of Cologne
- University of Trier
- Humboldt-Universität zu Berlin
- Westfälische Wilhelms-Universität Münster
- University of Hamburg
- Technical University of Berlin
- Ruhr-University Bochum
- University of Munich
- Technical University of Dresden
- University of Regensburg
- University of Heidelberg
- University of Stuttgart
- University of Duisburg-Essen
- Rheinische Friedrich-Wilhelms-Universität
- University of Hagen
- University of Freiburg
- Technical University of Darmstadt
- University of Tübingen
- University of Erlangen-Nuremberg
- Otto-von-Guericke University Magdeburg
- University of the Saarland
- University of Bremen
- Technical University of Chemnitz

Tuition Fees

Mainly state funded university and institution do not charge tuition fees. However, if you plan to study in private universities or colleges you should be prepared to pay.

Semester Fee

Only 350 Euro to 500 Euro is being charged as semester fees from students in governments universities

Living Cost

It is difficult to say exactly how much money a student in Germany needs per month. The cost of living varies from city to city. Generally students can live on less money in smaller cities than in large cities. And, of course, the amount of money you will need greatly depends on how economically you live.

长沙医学院第一附属医院

STUDY IN CHINA

About China

Over the past 30 years, China has had the world's fastest growing economy. Even during the financial crisis, China's economic growth was maintained at a level of 8%, a pace unmatched by any other nation. China's economy recently surpassed Japan's to become the world's second largest after the United States. Multinational companies have flooded the booming Chinese market and many of the world's top 500 companies choose to base their Asia-Pacific headquarters in the bustling Chinese cities of Shanghai, Beijing or Hong Kong.

Why study in China :

International students are increasingly studying in China. China's economy is improving more quickly than had been predicted, i.e. sizable economic growth by 2015 has been predicted as opposed to 2050. China has already drawn the attention of the West for its growth rates, and the 2008 Olympic Games and Shanghai Expo 2010 have intensified this positive attention. Another factor that draws students to China is the considerably lower cost of living in China compared to most western countries. Finally, major cities in China such as Beijing and Shanghai already have a strong international presence.

Visa Process :

Students who will study in China need to apply for a visa. Foreign students studying in China are required to hold an ordinary passport and either a Study visa (X-visa) (study period of more than 6 months) or a Business visa (F-visa) (study period of 6 months or less). If you enter China on a Tourist visa (L-visa), you will be required to change your visa into the relevant visa after entering China.

Applicants should apply for a Chinese visa from the nearest Chinese Embassies and Chinese Consulates.

Types of Chinese Visa :

Please note: If you intend to study in China, only the following three categories of visa are appropriate for you. Study visas (X-visa) are issued to those coming to China for study or an internship for longer than six months. Documentations required

- A valid passport as well as a copy of its information page. Your valid passport must have at least six months of remaining

validity and at least one blank visa page in it.

- Application form: One nearly completed Visa Application Form with genuine information and signature.
- Photo: one recently-taken color photo of 2x2 square inch glued or stapled on the application form.
- An original and a photocopy of Letter of Admission, Foreign Student Visa Application Form (JW202) issued by relevant Chinese government unit.

Besides the documentations mentioned above, other documents might be required by visa officers in order to decide whether to issue the visa case by case.

University List :

- Anhui Medical University
- Beihua University
- Capita Medical University
- Central South University
- China Medical University
- China Three Gorges University
- Chongqing Medical University
- Dali University
- Dalian Medical University
- Fudan University
- Fujian Medical University
- Guangxi Medical University
- Guangzhou Medical University
- Harbin Medical University
- Hebei Medical University

And Many More

STUDY IN UKRAINE

About Ukraine :

Ukraine welcomes you to a country spiring of culture and gastronomic specialties. Free, state funded higher education is provided on a competitive basis as well as private non-funded higher education. The language of tuition is generally Ukrainian or english . Ukrainian Universities offer both Bachelor Degree programs of 4 years and Master Degree programs of 5-6 years..

Why Ukraine : Some Major Advantages Of Studying In Ukraine

- Quality Education
- Globally Recognized Courses (Europe, UK, USA, Asia, Africa)
- Medical degree recognized by WHO, UNESCO, PLAB(UK), USMLE(USA), throughout EU and Various International Organization.
- No Entry Test.
- No IELTS or TOEFL required.
- Tuition fee paid on arrival.
- Cost effective
- European Life Standard
- Worldwide Acceptance of Ukrainian Method of Teaching
- English Medium of Instruction
- Emphasis on Practical Aspects in Teaching
- Outstanding International Faculty
- International Students enjoy approximately 30%~ 50% discounts on travel
- Enrichment of Experience through Visiting Professors from USA, CANADA, UK , etc.
- Participation of Students in Seminars/Symposia/Project Work, etc. in other European cities
- Bilateral Student Exchange Program with Universities in Germany, Sweden, Finland, Check Republic, etc.
- Three Months' Summer Jobs during vacation in countries i.e. U.K., SWEDEN and other E.U. countries
- Chances of Permanent Residence & Settlement in Europe after completion of study program
- 100% VISA assured to deserving candidates

Applicants From India, Sri Lanka, Maldives, Nepal And Bangladesh :

Medicine (MBBS), Nursing and Pharmacy with accommodation and all registration expenses: 5800USD 1st yr (it is lowest out of all medical universities. Student doesn't pay anything else). From 2nd yr to last 6th yr tuition fee remains constant: 4400USD with accommodation. **Stomatology(Dentistry) with accommodation and all registration expenses:** 6000USD. from 2nd yr 4600USD with accommodation,

tuition fee remains constant until last 5th yr.

Engineering courses: 4300USD with accommodation and all expenses inclusive. from 2nd yr 3800USD with accommodation, tuition fee remains constant until last 4th year.

Economic related, Business, Hotel and Tourism Management etc. : 4100USD with accommodation and all expenses inclusive. from 2nd yr 3600USD with accommodation, tuition fee remains constant until last 4th year.

- Matriculation certificate(10th Class), showing the date of birth.
- Certificate and mark-sheet of Intermediate (10+2 or equivalent class)
- Bachelor / Master's degree if available
- Six passport size photographs
- Photocopy of Passport
- Medical Certificate with HIV test report from the recognized government hospital/pathological lab/clinic.
- Birth Certificate

Legalization & Translation Of Documents

The following documents are to be legalized by the Ministry of Education & Ministry of Foreign Affairs of concerned country and there after they shall be translated into Russian language by the authorized translator of Embassy of Ukraine:

- Original Certificate & mark sheet of 10th class.
- Original Certificate & mark sheet of 10+2 or equivalent class.
- Original Degree of Bachelor/ Masters or equivalent.
- Then the Embassy of Ukraine legalizes the translated version of these documents, which are to be shown Universities along with the legalized original documents at the time of registration.

Study in **RUSSIA**

About Russia

Occupying 17 million square kilometers, Russia is the largest country in the world. It covers around one eighth of the Earth's inhabited land mass and spreads across two continents (Europe and Asia). The population is 143 million people. Russia is a multiethnic country. Ethnic Russians comprise 80% of the country's population, but the Russian Federation is also home to more than 160 different ethnic groups.

Education System

Higher Professional Education (Engineering, Economic, Humanities Specialties):

- "Bachelor of Science" degree: course duration 4 years
- "Master of Science" degree: course duration 2 years
- "Specialist" or "Engineer-specialist" qualification: course duration 5 years
- Post-graduate studies (leading to PhD): course duration 3 years.

Higher Professional Medical Education:

- General medicine: course duration 6 years
- Sports medicine: course duration 6 years
- Pediatrics: course duration 6 years
- Dentistry: course duration 5 years
- Pharmacy: course duration 5 years
- Clinical psychology: course duration 5 years.

Postgraduate Medical Education:

- Internship: course duration 1 year
- Clinical residency: course duration from 2 to 5 years (depending on the specialty and the doctor's wishes)
- PhD: course duration 3 years.

Why Russia?

Higher education overseas offers an opportunity for growth and development that only a few other experiences can provide so intensely. What does a young professional need to compete in today's job market? High-quality, prestigious education recognized all over the world. Russia, having the highest literacy rate in the world (99,6%), is rightly proud of having one of the best education systems in the world, as well as the greatest scientific and technological achievements, numerous Nobel Prize Winners, cultural and sporting figures of international status and the richest resources. Every year tens of thousands of students from all over the world come to study in Russia to get prestigious, globally recognized and affordable education.

Advantages Of Russian Higher Education For Foreign Citizens

- Russian higher education offers a wealth of choice from more than 300 medical, engineering, economic and humanities specialties.
- Russian higher education is based on the world-renowned school of fundamental and applied science, at the base of which lie the great discoveries of Russian scientists, which determined the course of developments in world science for many centuries ahead.

- Russian higher education gives the possibility of access to the most modern laboratories and scientific-technical centers.
- The highly qualified teaching personnel of Russian state universities (on average 80% of professors hold Ph.D. degrees) guarantee top-quality education.
- Russian higher education consists of prestigious universities with more than 100 years of history and globally respected degrees which are recognized all over the world.
- The study of foreign citizens at Russian state universities is up to 80% subsidized by the Government of Russia, making it affordable (the average cost of an academic year, including accommodation in a student hostel, is 2500-4000 USD).
- Russian higher education is an excellent opportunity to get to know a country which has a lot to offer a unique cultural and historical heritage, the incomparable beauty of its natural landscapes and climatic zones, the diversity of architectural styles in its biggest cities, and the rich traditions and customs of more than 160 nationalities living in Russia.

Visa Process

Upon receiving the "invitation letter for study", the student should refer to the Embassy/General Consulate of the Russian Federation in his / her country in order to apply for a student visa. Usually the following documents are required:

- Passport
- Completed application form (issued by the Embassy of the Russian Federation / General Consulate of the Russian Federation in your country)
- 3 photographs (3x4cm)
- Original of the "invitation letter for study"
- Original of medical health certificate, including chest X-ray result
- Original of negative HIV test results
- Certificate of complete higher secondary education
- Official bank documents (receipt) confirming full payment of tuition fees for the first academic year

Expense

Russian universities are extremely cheap and affordable and tuition fees usually ranges from \$3500 to \$5000. Cost of living is equally low, estimated at \$150 per month which covers the cost of accommodation, food, books etc. So if you cannot afford the huge tuition in places like the UK, US, Netherlands etc. why not make up your mind to study in Russia. Some universities in Russia have English medium courses for international students who do not understand the Russian language. I have written an article about education in Russia and will not want to talk about that now. Today, I want to post a comprehensive list of medical universities for the benefit of those who may want to study medicine, Pharmacy, dentistry or any other medical related program in Russia.

University List Of Russia

- Arkhangelsk State Medical Academy (northern state medical university)

- Astrakhan State Medical Academy
- Chelyabinsk State Medical Academy,
- Institute of Medical Education
- Dagestan State Medical Academy
- State Classical Academy (Moscow), Faculty of Medicine
- Kabardino-Balkarian State University, Medical Faculty
- Kuban State Medical Academy
- Kursk State Medical University, is the first university in Russia to offer full English Medium Studies.
- Tver State Medical Academy
- Kazan State Medical University, Medical Faculty
- M.K. Ammosov Sakha (Yakutsk) State University, Faculty of Medicine
- Military Medical Academy
- Mordovian Ogarev State University, Faculty of Medicine
- Moscow Medical Stomatology Institute, Medical Faculty
- Moscow State University of Medicine and Dentistry
- Moscow State University (M.V. Lomonosov)
- Nizhny Novgorod State Medical Academy, Faculty of Medicine
- North Ossetian State Medical Academy

Kursk State Medical University (Kursk, Russia)

Kursk State Medical University was established in 1935 and is recognized by WHO, MCI, IMED, etc. The past years have been ones of improving the teaching process organization, developing the scientific potential and practical health care, reinforcing the material and technical base. The university has become well-known in the country. Outstanding scientists and practical health care workers are graduates of the University. In 1994 the higher institution obtained the status of a university. Currently it is a multi-profile medical university and a medical educational and cultural centre in Kursk region, thanks to the contributions and efforts of our professors, teachers and staff members. We are proud of fully competent medical professionals who dedicate their lives to promotion of educational and professional excellence.

Faculties :

Medical Faculty
Pharmaceutical Faculty Stomatology Faculty
Pediatric Faculty

Pre Diploma Education

Orenburg State Medical Academy (Orenburg, Russia)

The Orenburg State Medical Academy was established in August of 1944. The first doctors graduated in May, 1946. By decision of State committee of Russia on Higher School, the Institute was reorganized into The Orenburg State Medical Academy on July 15, 1994. Specialists in the sphere of medicine have graduated from the Academy for many years.

Graduates of the Academy are working in state and private medical and preventive institutions with leading positions in state administrative structures while solving primary issues on development of modern medicine.

There are three hostels at the Academy: No.1, No.2 and No.3, opened in 1961, 1964 and 1981 correspondingly. The hostels became the second home for young people who came from different countries.

All favorable conditions are created in the hostels: rooms for organization and running of events, sports areas, household rooms with all necessary equipment, personal hygiene rooms, libraries, Internet, cloak-rooms.

Faculties :

Department of General Medicine
Department of Pediatrics
Dental Department
Department of preventive care
Pharmaceutical Department
Department of Clinical Psychology

Kazan State Medical University (Kazan, Russia)

Kazan State Medical University is a multi-functional and multi-leveled state institution for higher learning in medicine recognized by WHO, MCI, IMED, etc. It meets both personal and social needs in acquiring education in medicine, in developing bio-medical and clinical sciences, as well as broadening scientific knowledge of medical science.

Kazan State Medical University functions on the basis of self-governance and belongs to the system of higher education and scientific research of the Ministry of Health of Russia. The highest body is academic council. On March 6, 1994 the university was issued a license No 16 235 by the State Committee of Higher Education of Russian Federation which grants the rights to perform activities in the field of professional education.

Under the auspices of KSMU here work 54 medical hospitals, maternity houses, special diagnostic centers, outpatients units and 20 polyclinics (including dental and children) in Kazan. This complex educational system in the framework of the university provides the continuous higher education of medicine. KSMU carries on an aimed preparation of experts in different fields of medicine. Faculties

Medical Faculty :

The faculty is one of the oldest and largest among all medical faculties of medicine in Russia. It was founded in May of 1814; here the period of studies is 6 years. The medical faculty prepares students to perform medical treatment. The alumnus of the faculty may choose to narrow their specialization allowing them to work in various fields of medicine.

Pediatric Faculty :

The Pediatric Faculty was founded in December 1932. The faculty was organized by its first dean, Prof. Efim M. Lepsky. The faculty is designed for training the doctors that specialize in given prophylactic medical treatment to healthy and ill children. The course work is 6 years in all. At present the student body of the faculty is 965 students. The primary specializations are Pediatrics and Pediatric Surgery.

Prophylactic Faculty :

The prophylactic faculty was founded in 1930. It trains specialists in hygiene and epidemiology, their activities being the evaluation of a person's health and environment in order to perform necessary prophylactic activities. The period of studies is 6 years.

Dental Faculty :

The higher dental education in Kazan started in 1921. In 1954, at the Kazan State Medical University the dental faculty was opened. The main features of the faculty are: dental clinic at the university (60 work places and phantom class); face-jaw departments of the child's medical center (30 beds) and emergency room of the main hospital (60 beds). The period of study is 5 Years.

Pharmaceutical Faculty :

The pharmaceutical faculty was founded in 1975. Its main designation is to train experts in the field of making, production and usage of the medicine, to make them ready for immediate and qualified help for the public. The period of study is 5 years

Osh State Medical University (Osh, Kyrgyzstan)

Osh State University is one of the oldest higher education institutions in Kyrgyzstan located in the south of the country and is recognized by WHO, MCI, IMED, etc. It was established in 1992 on the basis of Osh State Pedagogic Institute which was organized in 1951. Now a days the university is considered to be one of the leading universities in Southern Kyrgyzstan.

It concentrates around itself the great academic and scientific potential (27,000 students, including 1,500 international students; 1,663 teachers on the staff including 253 Candidates and 59 Doctors of Science). The university provides training in a wide range of study areas including Law, Medicine, Education, Social Work, Economics, International Relations (9 research institutes, 17 faculties, 25 education, research and resource centers).

Osh State University has 9 hostels widely spread around university. Books and other study material are available for the students. The students are not only busy with their studies, they can do the scientific research work and they can also manage to find time for sports -football, swimming, tennis, Cricket etc. Students of the institute can have a rest in sports and health recreation camp.

Faculties :

Medicine
Pediatrics & Dentistry
Medical-care business

Vitebsk State Medical University (Vitebsk, Belarus)

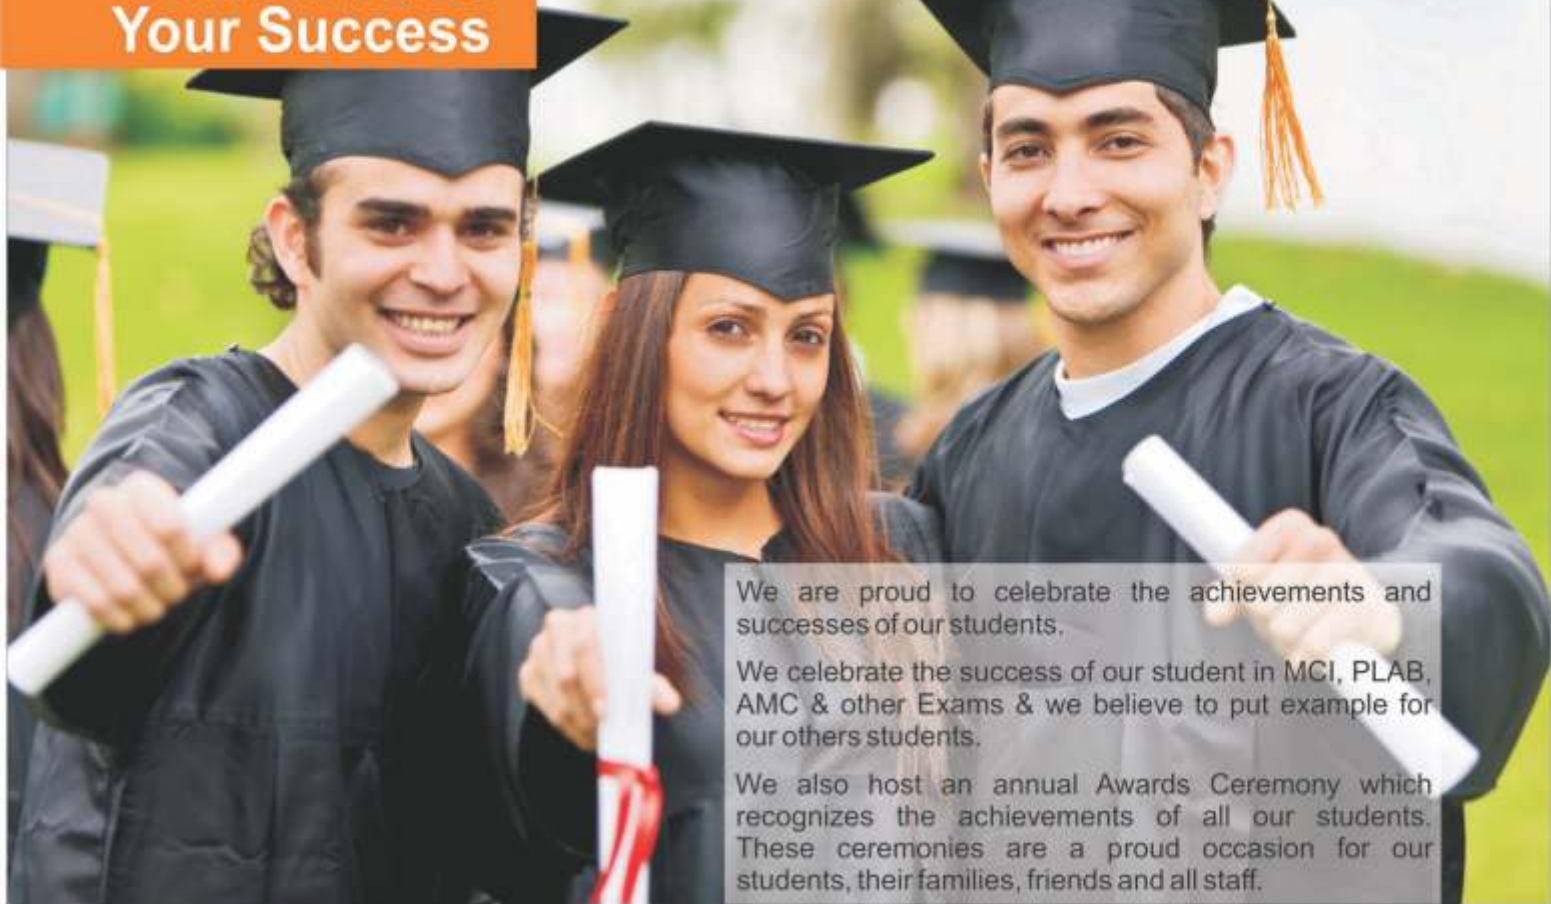

Vitebsk state medical university is recognized by WHO, MCI, IMED, etc. and could become for you a perfect starting point in the beginning of a new prestigious career. It has a long history and profound traditions, huge strive for progress and intellectual potential of the working staff. All this allows us to state confidently and without any doubt : in medical science and education of the 21st century we shall take a worthy and merited place.

Vitebsk State Medical University has 58 departments; where 60 doctors and 184 candidates of sciences, including 39 professors and 145 associate professors work. The educational departments are equipped with modern automatic apparatuses for training, sets of plastic models and phantoms, complex medical-diagnostic equipments. The teaching is supported with skilled pedagogical experience, highly-qualified research activity and great academic means of training.

Faculty :

Medical Faculty
Pharmaceutical Faculty,
Stomatological Faculty,
Overseas Students Training Faculty,
Post-Graduate Training Faculty,
Pedagogic Faculty

Celebrate Your Success

We are proud to celebrate the achievements and successes of our students.

We celebrate the success of our student in MCI, PLAB, AMC & other Exams & we believe to put example for our others students.

We also host an annual Awards Ceremony which recognizes the achievements of all our students. These ceremonies are a proud occasion for our students, their families, friends and all staff.

Keep in Touch

If you have any queries about your studies, we would like you to keep in touch .

Testimonials

Quotes and experiences of our satisfied students.

I was quite apprehensive in deciding whether or not to choose studying medicine in China but all my doubts were cleared as soon as I approached this consultancy. They answered all my questions with patience and motivated me to apply for MBBS in China.

TESSY ANN SAMUEL (MBBS CHINA)

"REALLY HAPPY WITH THE SERVICE "It was not solely regarding the details of MBBS in Russia that I used to be yearning for, however additionally thereto, I used to be additionally yearning for info relating to the accommodation facilities that area unit offered here. In fact, knowing regarding the accommodation was so terribly essential on behalf of me as a result of details basis on all the elaborated info collected that I might build my next move. This website gave Pine Tree State absolute relief from all my worries."

SANJAY KUMAR (MBBS RUSSIA)

I got selected in several Indian institutions like AIEEE, NIT, VIT etc. but I chose Germany for my Bachelors in Aeronautics in one of the top Technical University of the world. The Education level & standards are much higher here with a lot of practical exposure.

HARRISH KUMAR (Aeronautical Engineering Germany)

I preferred HeadStart over several other so called consultants because of the British Council Certified counselor. I knew that only a qualified counselor can guide a proper & unbiased solution. I am now fully satisfied that my decision was right.

ANKIT SONI (MBA UNITED KINGDOM)

Applying for Bachelors in Biotechnology was a tough decision for me but as I got scholarship for the same, my parents agreed and hence I want to thank HeadStart as they made the pathway to my success. Today I can say that ~~they made my dreams come true.~~

ANN JOSEPH (BACHELORES IN BIOTECHNOLOGY GERMANY)

"I was interested in postgraduate studies after graduating and am very grateful for the Medical Student Advisors office for making arrangements for me to do my specialization in this foreign medical universities. I was also happy to meet many other Africans studying in this beautiful country.

FABIAN TITHA (GENERAL MEDICINE CANADA)

I liked the way HeadStart did the whole procedure of sending me to Germany because I always thought it was very difficult to go abroad and study. Thanks to Dr.DEEPENDRA PANDEY for everything.

DEEPAK KUMAR (MASTERS IN ENVIRONMENTAL ENGINEERING NEWZLAND)

"As an M.D./Ph.D. student, I came to Australia because it offered the best in both medical and research education: a large, urban medical center to provide excellent clinical training, and many world-renowned research labs in which to do my thesis. As a minority student I appreciate the support structure that is here for students like myself. I have a long road ahead and it is nice to know that I have advisors with backgrounds similar to my own that I can go to for guidance."

DR. MANOJ KRISHNA (CARDIOVASCULAR SUREGON AUSTRALIA)

"I first contacted the MSA office by email after contacting many other foreign education consultancy. After a few contacts we sent my documents through and my seat was reserved. I was very worried, because I had not applied anywhere else, but after 2 months I received my acceptance letter and travel arrangements were made. Fortunately my dad came with me. In Bucharest we were picked up in a 4X4 and we were taken to the train station and sent off to Oradea where we were picked up and taken to our hotels"

RAZKA KHAN(UK EMERGENCY MEDICINE)
